Alonzo:

Ok, basically what is being said to me is that the only thing that was done on Friday was the transfer of oil from frac tanks to tank 30. This is the only thing that was done from September 26 - 28.

it appears that 2200 barrels was transferred into Tank 12 from September 24 - 25.

Based upon your previous weekly, you should have 18 people on site beginning today taking care of issues on the site. Is that going to happen?

The weekly report for this week needs to be updated. The schedule is not correct meaning that you guys don't do what you say your going to do!!!! FIX THE SCHEDULE.....

Thanks
